by Tri-anim

Aerogen®

Pioneering Aerosol Drug Delivery

Rewards by Tri-anim® allow you to immediately access and use great capital equipment like the Aerogen Pro-X controller in return for consistent purchases of the disposable products that you use everyday in your facility.

1

What capital equipment does your facility need to save time, money and improve patient outcomes?

2

We give you the capital equipment when you commit to purchase disposables from the product categories shown on page 2.

3

The more you commit to purchase, the more rewards credits you earn and the more capital equipment you get to use.

Aerogen's breakthrough palladium vibrating mesh technology has transformed the science of nebulization. The fine particle size of medication gently flows into the patient lungs, allowing for superior drug delivery, for the most compromised of patients.
